EDUCATION

- **University of Toronto** Mississauga, ON
Computer Science and Mathematics *Sep. 2020 - Present*
- **Stephen Lewis Secondary School** Mississauga, ON
Secondary School Education *Sep. 2016 - June. 2020*

PROJECTS

- **Angular Portfolio Website**
Angular, HTML, CSS, TypeScript, JavaScript
 - **Summary:** A career portfolio developed using Angular, HTML, CSS, TypeScript, and JavaScript. This website showcases past and present projects, an interactive resume, and contact information.
- **NBA Data and Statistics Bot**
Python, SQL
 - **Summary:** An NBA data and statistics bot developed using Python and SQL. This bot provides users with access to the statistics of any player for any season. Favorite players and seasons can be stored in an editable list.
- **2D Tower Defense Game: Duck Defense**
LibGDX, Java
 - **Summary:** A 2D Tower Defense game developed using LibGDX and Java. Players can drag and drop ducks onto the screen to battle automated enemies attempting to reach the end of a path.
- **2D Platformer Shooting Game: Skelly Run**
LibGDX, Kotlin, Python
 - **Summary:** A 2D Shooting Platformer developed using LibGDX, Kotlin, and Python. Players navigate through 5 stages filled with platforming challenges and enemies that target and attack the player.
